## WRNC is offering a new course for wildlife rehabilitators

The Federal Migratory Bird Rehabilitation Permit Course is designed for State licensed wildlife rehabilitators who wish to obtain their federal permit. The sessions are comprehensive, covering all aspects of avian care. Credit hours and a certificate of attendance will be given to all who complete the class, as documentation when applying for a federal wildlife rehabilitation license. Sessions include lecture, workshops, hands-on labs and discussion.

Pre-registration is required.

### Text & Handouts Provided

Class fee is : \$30.00 for the two day class.

### Goals of the class

- Provide knowledge of the laws covering the rehabilitation of migratory birds.
- Instill appreciation for the Minimum Standards for care of birds in WR and the Wildlife Rehabilitation Code of Ethics.
- Provide basic information & guidelines for care of birds in wildlife rehabilitation.
- Make recommendations & give information regarding the care of birds in wildlife rehabilitation.
  - Assist those who wish to become Federally Licensed wildlife rehabilitators.
  - Provide a network of opportunities to receive hands-on experience required for the Federal Rehabilitation permit.
  - Provide sources of information regarding rehabilitation of specific birds.

### Topics Covered

- Introduction & Permit Requirements
- Avian Anatomy & Physiology
- Identification & Natural History
- Intake & Examination
- Care & Housing of Baby Birds
- Care & Housing of Adult Passerines
- Nutrition
- Groceries & Supplies
- Preparing for Release
- Telephone, Triage & Transport
- Working With Your Veterinarian

Creature features-information on rehabilitation of over 15 not-so common species of NC birds
